👤 Profile

I am a web software programmer with 2 years of experience in the software industry. My specialization involves data collection and web interfacing for business tools and accessibility. My new plans involve the exploration of new avenues of the computing space.

💼 Relevant Experience

Junior Software Developer – Full time
Globiq B.V. Phils

JOE Building, Calindagan, Dumaguete City
February 2023 – Present Day

- Maintains the company's web portal and database for business operations
- Produced Bookkeeping Agents to assist operators operating on Third-party Accounting Software. These agents aid in logging and communication with operators for ease of access and tracking.
- Created designs and setup webpages for the portal and other miscellaneous projects.

Graphic Design and Web Development – Intern
Perti Solutions

June – August 2021

- Assisted on Creating and developing the company's webpage using WordPress tools
- Assisted on Quality Assurance for the client's websites
- Created Social Media Posts for the company

🔧 Relevant Skills
